

MEDICAL EDUCATION CONFERENCE MANAGING DISEASE-LIKE RELATIVE NUTRITIONAL DEFICIENCY SYMPTOMS™

ATLANTA AIRPORT MARRIOTT - APRIL 27, 2019
9AM TO 4PM (LUNCH PROVIDED)

SEATTLE AIRPORT MARRIOTT - JUNE 15, 2019
9AM TO 4PM (LUNCH PROVIDED)

THE SPEAKERS WILL PRESENT THEIR ORIGINAL PEER-REVIEWED CLINICAL RESEARCH PAPERS AS PUBLISHED ON THE NATIONAL INSTITUTE OF HEALTH WEBSITE.

A **RELATIVE NUTRITIONAL DEFICIENCY** OCCURS WHEN AN OPTIMAL DIET DOES NOT MEET THE NEEDS OF THE SYSTEM. VIRTUALLY ALL PATIENTS IN DEVELOPED COUNTRIES ARE ON AN OPTIMAL DIET.

HOW DO RELATIVE NUTRITIONAL DEFICIENCIES FIT INTO MEDICINE?

WE USE DEPRESSION AS THE EXAMPLE. THE PROVISIONAL DIAGNOSIS OF DEPRESSION IS MADE BASED ON DSM-5 CRITERIA. NEXT THE DIFFERENTIAL DIAGNOSIS IS FORMULATED:

- RULE OUT DEPRESSION-LIKE ANEMIA SYMPTOMS
- RULE-OUT DEPRESSION-LIKE HYPOTHYROID SYMPTOMS
- RULE-OUT DEPRESSION-LIKE RELATIVE NUTRITIONAL DEFICIENCY SYMPTOMS.
- ETC.

IF ON AN OPTIMAL DIET SYSTEMIC SEROTONIN, DOPAMINE, OR GLUTATHIONE CONCENTRATIONS ARE:

- LOW
- INADEQUATE
- DEPLETED
- SUBOPTIMAL

THEN A RELATIVE NUTRITIONAL DEFICIENCY OF THE NUTRIENTS REQUIRED BY THE BODY FOR SYNTHESIS IS ALWAYS PRESENT.

THIS COURSE WILL TEACH THE ABILITY TO IDENTIFY AND MANAGE INADEQUATE, DEPLETED, OR SUBOPTIMAL SEROTONIN, DOPAMINE, AND GLUTATHIONE caused by deficient synthesis on an OPTIMAL DIET.

- WHEN REUPTAKE INHIBITOR DRUGS (ANTIDEPRESSANTS, ETC.) INDUCE CONDITIONS THAT DEplete SEROTONIN OR DOPAMINE IT REPRESENTS A RELATIVE NUTRITIONAL DEFICIENCY.
- WHEN IMPROPER ADMINISTRATION OF NUTRIENTS INDUCES SEROTONIN, DOPAMINE, OR GLUTATHIONE DEPLETION IT REPRESENTS RELATIVE NUTRITIONAL DEFICIENCY.
- THE DISEASE-LIKE SYMPTOMS ASSOCIATED WITH SEROTONIN AND DOPAMINE DEPLETION ARE CAUSED BY RELATIVE NUTRITIONAL DEFICIENCY. THIS IS ROUTINELY MIS-DIAGNOSED

ONLY NUTRIENTS CAN PROPERLY ADDRESS A NUTRITIONAL DEFICIENCY. WHILE DRUGS CAN INDUCE A RELATIVE NUTRITIONAL DEFICIENCY, THEY HAVE NO ABILITY TO ADDRESS NUTRITIONAL DEFICIENCY.

GOOGLE SEARCH: "RELATIVE NUTRITIONAL DEFICIENCY" THE GOLD STANDARD DEFINITION OFFERED BY GOOGLE IS FROM A PEER-REVIEWED PAPER PUBLISHED BY THE CONFERENCE SPEAKERS AS FOUND ON THE NATIONAL INSTITUTE OF HEALTH WEBSITE.

Disease-like symptoms™ that might be caused by monoamine RND

Inadequate, low, depleted, or suboptimal serotonin or dopamine on an optimal diet represents a relative nutritional deficiency
